RELEVANT SKILLS AND EXPERIENCE

Full-stack Web Development Skills

- Consulted with clients to develop and document website requirements.
- Created user-friendly web pages by using markup languages, including HTML.
- Wrote high-quality and well-structured code which was easy to maintain and understand.
- Collaborated with the development team to design, code, test, and debug web applications and software components.
- Developed responsive and user-friendly interfaces using HTML, CSS, SCSS, bootstrap and React JS frameworks and implemented modern design concepts, ensuring cross-browser compatibility and optimal performance.
- Implemented server-side logic and APIs using PHP Laravel, ensuring seamless data flow and efficient functionality between front-end and back-end.
- Ensured the applications working consistently across different web browsers and devices.
- Designed, implemented, and maintained the web frontend codebase in a mature JavaScript UI component framework.
- Contributed with backend development using Node.js and Express to construct robust APIs
- Played a crucial role as a key team member at Brand M3dia, contributing to the development of an innovative pay kiosk project.
- Acquired full-stack skills, comprehensive API integration knowledge, and practical insights into real-world development.
- Developed, modified, integrated, and tested software code for e-commerce and diverse Internet applications.
- Compiled reports, manuals, and documentation detailing the status, operation, and maintenance of software and user requirements.

EDUCATION AND CERTIFICATIONS

Enterprise Web & Mobile Developer Diploma, triOS College (2022 – 2023)

Accounting Degree, Sana'a University
