PROFILE

Motivated and aspiring Web Developer with a passion for coding and creating engaging websites. Armed with a Diploma in Enterprise Web & Mobile Development, adept at working with various programming languages and frameworks. Possesses strong organizational and communication skills, thriving in both independent and collaborative settings while delivering high-quality results within tight deadlines.

EXPERIENCE

Co-op Full-stack Developer at Brand M3dia

2023-07 -2023-11

- Played a crucial role as a key team member at Brand M3dia, contributing to the development of an innovative pay kiosk project.
- Developed a user-friendly interface using React, ensuring seamless navigation for customers.
- Contributed with backend development using Node.js and Express to construct robust APIs.
- Concentrated on integrating with a centralized API while handling tasks such as payment processing and user authentication.
- Honed version control abilities through collaborative work on GitHub with teammates.
- Strengthened problem-solving prowess by addressing and overcoming various challenges in the development process.
- Acquired full-stack skills, comprehensive API integration knowledge, and practical insights into real-world development.
- Compiled reports, manuals, and documentation detailing the status, operation, and maintenance of software.

Full-stack Developer at Alieniz

2020 – 2021

- Collaborated with the development team to design, code, test, and debug web applications and software components.
- Developed responsive and user-friendly interfaces using HTML, CSS, SCSS, bootstrap and React JS frameworks and implemented modern design concepts, ensuring cross-browser compatibility and optimal performance.
- Implemented server-side logic and APIs using PHP Laravel, ensuring seamless data flow and efficient functionality between front-end and back-end.
- Demonstrated problem-solving skills through effective debugging and troubleshooting to identify and resolve technical issues.

Volunteer, Somali Refugee Centre in Malaysia

2016-2020

- Assisted in computer installation and maintenance at the center.
- Taught basic computer skills to children.
- Distributed food and clothes to refugees in need.

Self Employed - IT Technical Specialist

2004-2015

- Provided timely and effective technical support to end-users, both remotely and on-site. Resolved hardware and software issues for desktops, laptops, printers, peripherals, and mobile devices.
- Conducted training sessions to educate end-users on hardware and software usage, best practices, and security awareness.
- Managed network infrastructure, configuring and maintaining network equipment for stability, security, and reliability.

EDUCATION/CERTIFICATIONS

- Sana'a University - Accounting
- Enterprise Web & Mobile Developer, triOS College
- Coursera Certificate from IBM NoSQL Databases and IBM Cloudant.

HIGHLIGHTS OF SKILLS

- Consult with clients to develop and document Website requirements.
- Writing high-quality and well-structured code that is easy to maintain and understand.
- Ensuring that the applications work consistently across different web browsers and devices.
- Building applications that adapt and work well across different devices and screen sizes.
- Creating and implementing UI/UX designs.
- Design, implement, and maintain the web frontend codebase in a mature JavaScript UI component framework (e.g., React)
- Troubleshooting, debugging, and optimizing performance.
- Working closely with project manager, other developers and IT professionals.
- Creating user-friendly web pages by using markup languages, such as HTML.
- Being up to date with current trends and emerging technologies.
- Proficiency in JavaScript, HTML, and CSS.

Languages:

- | | | |
|--------------|--------|---------|
| • HTML | • C# | • PHP |
