## PROFILE

Motivated and aspiring Web Developer with a passion for coding and creating engaging websites; Armed with a Diploma in Enterprise Web & Mobile Development, adept at working with various programming languages and frameworks; Possesses strong organizational and communication skills, thriving in both independent and collaborative settings while delivering high-quality results within tight deadlines; Being up to date with current trends and emerging new technologies.

## WORK EXPERIENCE

### Co-op full stack developer | Brand M3dia

Jul 2023 – Nov 2023

- Played a crucial role as a key team member at Brand M3dia, contributing to the development of an innovative pay kiosk project.
- Conducted detailed analysis to develop a user-friendly interface using React, ensuring seamless navigation for customers.
- Contributed with backend development using Node.js and Express to construct robust APIs.
- Executed tasks such as payment processing and user authentication, demonstrating leadership in handling critical functionalities.
- Honed version control abilities through collaborative work on GitHub with teammates.
- Strengthened problem-solving prowess by addressing and overcoming various challenges in the development process.
- Acquired full-stack skills, comprehensive API integration knowledge, and practical insights into real-world development.
- Compiled reports, manuals, and documentation detailing the status, operation, and maintenance of software.

### Front end Developer | Alieniz

2020- May 2021

- Collaborated with the development team to design, code, test, and debug web applications and software components.
- Developed responsive and user-friendly interfaces using HTML, CSS, SCSS, bootstrap and React JS frameworks and implemented modern design concepts, ensuring cross-browser compatibility and optimal performance.
- Implemented server-side logic and APIs using PHP Laravel, ensuring seamless data flow and efficient functionality between front-end and back-end.
- Demonstrated problem-solving skills through effective debugging and troubleshooting, showcasing leadership in resolving technical issues.

### Volunteer, Somali refugee centre in Malaysia

2016- 2020

- Assisted in computer installation and maintenance at the centre.
- Taught basic computer skills and fundamentals of Web Development.
- Distributed food and clothes to refugees in need.

## EDUCATION

**Enterprise Web & Mobile Developer Diploma**, triOS College Business Technology (2022 – 2023)

**Accounting Degree**, Sana'a University, 2000-2004

## CORE TECH SKILLS

**Languages:** JavaScript, PHP HTML, CSS & SCSS, C#, Java, SQL, iOS, Swift, Android.

**Databases:** Database Management, MySQL, SQL, MongoDB, CASSANDRA

**Frameworks:** React.js, jQuery, Bootstrap, Node.js, Express.js, Django, ASP.NET, ASP.NET Core

**Development Tools:** VS Code, Git, GitHub, Agile Scrum, Agile JIRA, Chrome Developer Tools, Postman, Docker, XAMPP Web servers.

**Design Tools & Other:** Adobe Photoshop, Adobe Illustrator, Adobe Xd, Figma, Sketch

**Familiarity with:** CMS, GraphQL, Redux, Jenkins, testing frameworks like jest

## RELEVANT SKILLS AND EXPERIENCE

- Consult with clients to develop and document website requirements.
- Develop marketing websites, microsites, and email templates based on provided designs.
- Ensure user interfaces are responsive for a smooth experience across different devices.
- Writing high-quality, clean and well-structured code which was easy to maintain and understand.
- Collaborate with the development team to design, code, test, and debug web applications and software components (fix bugs).
- Develop responsive and user-friendly interfaces using HTML5, CSS3, SCSS, bootstrap and React JS framework and implemented modern design concepts, ensuring cross-browser compatibility, usability, optimizing speed and optimal performance.
- Implementation server-side logic and REST APIs using NodeJS, express and PHP Laravel, ensuring seamless data flow and efficient functionality between front-end and back-end.
- Ensure the applications working consistently across different web browsers and devices.
- Design, implement, and maintain the web frontend codebase in a mature JavaScript UI component framework.
- Participate in code reviews, testing, and debugging to maintain code quality.
- Contribute with backend development using Node.js and Express to construct robust APIs
- Transform adobe Xd and Figma mock-ups into functional web pages through collaboration with stakeholders.
- Worked directly with Product Management, prioritizing work based on deadlines and project scope, demonstrating leadership skills.
- Acquired full-stack skills, comprehensive API integration knowledge, and practical insights into real-world development.
- Developed, modified, integrated, and tested software code for e-commerce and diverse Internet applications.
- Compile reports, manuals, and technical documentation detailing the status, operation, and maintenance of software and user requirements emphasizing best practices in documentation.
- Demonstrated scalability, front-end development, best coding practices including peer code reviews, and unit testing, the ability to work independently, and reliability throughout various projects.
