Jibril Omar

Toronto ON | 647-907-1141 | Jibrilosman404@gmail.com

https://www.jibrilomar.com/ | LinkedIn | Github | Front End Mentor

Professional Summary

Motivated and aspiring Web Developer with a strong passion for **cybersecurity** and **web development**, holding a **Security+** certification and a **Diploma** in Enterprise Web & Mobile Development. Skilled in working with diverse programming languages and frameworks, with excellent organizational and communication abilities. Thrives in both independent and collaborative environments, consistently delivering high-quality results under tight deadlines while staying up to date with the latest trends and emerging technologies.

Education

Cyber Bootcamp	**Web & Mobile Development Diploma**	**Accounting Degree**
Cyber Nations Aug – Dec 2024	TriOS College 2022 – 2023	Sana'a University, 2000 – 2004

Core Tech Skills

Languages: JavaScript (ES6), PHP, HTML, CSS & SCSS, C#, Java, SQL, iOS, Swift, Android.

Databases: Database Managment, MySQL, SQL, MongoDB, CASSANDRA

Frameworks: React.js, Redux, jQuery, Bootstrap, Node.js, Express.js, Django, ASP.NET, ASP.NET Core

Design Tools & Other: Adobe Photoshop, Adobe Illustrator, Adobe Xd, Figma, Sketch

Additional Skills: CMS, SEO, MUI Framework, GraphQL, Jenkins, testing frameworks like jest

Development Tools: VS Code, Git, GitHub, GitLab, Agile, Scrum, JIRA, Chrome Developer Tools, Postman, Docker, XAMPP Web servers.

Technical Skills:

Threat Analysis and Vulnerability Management, SIEM Tools (Splunk), Network Monitoring (Wireshark), Operating Systems: Windows, Linux (Kali), macOS, Programming/Scripting: Python, Bash, PowerShell, Security Frameworks: NIST, ISO 27001

Work Experience

Full Stack Developer | Brand M3dia Jul 2023 Nov 2023

- Played a crucial role as a key team member at Brand M3dia, contributing to the development of an innovative pay kiosk project.
- Conducted detailed analysis to develop a user-friendly interface using React, ensuring seamless navigation for customers.
- Contributed with backend development using Node.js and Express to construct robust APIs.
- Executed tasks such as payment processing and user authentication, demonstrating leadership in handling critical functionalities.
- Honed version control abilities through collaborative work on GitHub with teammates.
- Strengthened problem-solving prowess by addressing and overcoming various challenges in the development process.
- Acquired full-stack skills, comprehensive API integration knowledge, and practical insights into real-world development.
- Compiled reports, manuals, and documentation detailing the status, operation, and maintenance of software.

Front End Developer | Alieniz Jan 2020 - May 2021

- Collaborated with the development team to design, code, test, and debug web applications and software components.
- Developed responsive and user-friendly interfaces using HTML5, CSS3, SCSS, bootstrap and React JS frameworks and implemented modern design concepts, ensuring cross-browser compatibility, usability, optimizing speed and optimal performance.
- Implemented server-side logic and APIs using PHP Laravel, ensuring seamless data flow and efficient functionality between front-end and back-end.
- Demonstrated problem-solving skills through effective debugging and troubleshooting, showcasing leadership in resolving technical issues.

Volunteer – Somali Refugee Center in Malaysia | 2016 – 2020

- Assisted in computer installation and maintenance at the centre.

- Taught basic computer skills and fundamentals of Web Development.
- Distributed food and clothes to refugees in need.

Self-employed – IT Technical Support | 2004 – 2015
- Delivered prompt and efficient technical support to end-users both remotely and on-site, troubleshooting and resolving hardware and software issues across desktops, laptops, printers, peripherals, and mobile devices.
- Led training sessions to educate end-users on hardware and software usage, best practices, and security awareness.
- Managed network infrastructure, configuring and maintaining network equipment for stability, security, and reliability.

Additional Skills

- Translate adobe Xd and Figma mockups and wireframes into functional web pages through collaboration with stakeholders.
- Consult with clients to develop, modify and document website requirements.
- Writing high-quality, clean and well-structured code which was easy to maintain and understand.
- Collaborate with UI/UX designers to transform design concepts into functional and interactive web components through effective translation.
- Participate in code reviews, testing, and debugging to maintain code quality.
- Worked with Project Management, prioritizing work based on deadlines and project scope, demonstrating leadership skills.
- Proficient in SPA, SSR, Static Sites, with expertise in their trade-offs, performance
- Demonstrated scalability, front-end development, best coding practices including peer code reviews, and unit tests, the ability to work independently and manage multiple projects simultaneously.

Work Samples

SELF ORDER KIOSK: https://self-order-chi.vercel.app (wait for 30 seconds to 1 minute to get the DATA)
Scope: I was responsible for the self-order kiosk front-end and back-end development using react, react context, Material UI and more, I integrated functionality for PIN Pad purchases

YUMMY CAKE: https://www.yummy.jibrilomar.com/index.php
Scope: I was responsible for the front-end and back-end development of this website, including user interfaces, implementing functionality, and optimizing performance. Additionally, I integrated e-commerce functionality for online purchases.

SPORT SHOP E-COMMERCE: https://www.jibrilomar.com/static/media/ProjectPrototype2
Scope: I was responsible for the front-end development of this ecommerce website, employing Bootstrap, HTML, and JavaScript, while also managing the backend utilizing .NET Core and an SQL database, I integrated e-commerce functionality for online purchases.
