PROFILE

Motivated and aspiring Junior Web Developer with a passion for coding and creating engaging websites. Armed with a Diploma in Enterprise Web & Mobile Development, adept at working with various programming languages and frameworks. Possesses strong organizational and communication skills, thriving in both independent and collaborative settings while delivering high-quality results within tight deadlines.

EXPERIENCE

Co-op Fulls-tack Developer at Brand M3dia   2023-07 …

- During my co-op at Brand M3dia, I was a key member of the team working on an innovative pay kiosk project. I focused on using React to create a user-friendly interface that customers could easily navigate. Additionally, I delved into the backend using Node.js and Express to build robust APIs for tasks like payment processing and user authentication. Integrating with a centralized API taught me valuable skills in handling external systems. Collaborating with my teammates on GitHub honed my version control abilities, while solving challenges refined my problem-solving prowess. This experience equipped me with full-stack skills, API integration knowledge, and practical insights into real-world development.
- Prepare reports, manuals and other documentation on the status, operation and maintenance of software

Junior Full-stack Developer at Alieniz   2020 – 2021

- Collaborated with the development team to design, code, test, and debug web applications and software components.
- Developed responsive and user-friendly interfaces using HTML, CSS, SCSS, bootstrap and React JS frameworks and Implemented modern design concepts, ensuring cross-browser compatibility and optimal performance.
- Implemented server-side logic and APIs using PHP Laravel, ensuring seamless data flow and efficient functionality between front-end and back-end.
- Demonstrated problem-solving skills through effective debugging and troubleshooting to identify and resolve technical issues.

Volunteer, Somali Refugee Centre in Malaysia   **2016-2020**

- Assisted in computer installation and maintenance at the center.
- Taught basic computer skills to children.
- Distributed food and clothes to refugees in need.

Self Employed - IT Technical Specialist   **2004-2015**

- Provided timely and effective technical support to end-users, both remotely and on-site. Resolved hardware and software issues for desktops, laptops, printers, peripherals, and mobile devices.
- Conducted training sessions to educate end-users on hardware and software usage, best practices, and security awareness.
- Managed network infrastructure, configuring and maintaining network equipment for stability, security, and reliability.

EDUCATION/CERTIFICATIONS

- Studied Accounting at Sana'a University
- Enterprise Web & Mobile Developer, triOS College (Expected Graduation in 2023)
- Microsoft developer certifications: C# dev., Windows 10, ASP.NET
- Mobile development: Android, iPhone, and mobile web dev.
- Coursera Certificate from IBM NoSQl Databases and IBM Cloudant.
- Advanced web technologies: Linux & Apache, PHP programming, JQuery, and CMS dev.
- Development and web fundamentals: Adobe Suite, JavaScript, SQL, and Java programming

HIGHLIGHTS OF SKILLS

- Writing high-quality and well-structured code that is easy to maintain and understand.
- Optimizing code for performance, ensuring fast loading times and smooth user experiences.
- Ensuring that the applications work consistently across different web browsers and devices.
- Building applications that adapt and work well across different devices and screen sizes.
- Creating and implementing UI/UX designs.
- Troubleshooting, debugging, and optimizing performance.
- Keeping up to date with advancements in technology.
- Working closely with other developers and IT professionals.
- Designing new features while managing older ones.
- Creating user-friendly web pages by using markup languages, such as HTML.
- Maximizing the application pace by optimizing the scalability of applications.
- Being up to date with current trends and emerging technologies.
- Proficiency in JavaScript, HTML, and CSS.
- Proficiency in using CSS preprocessors (e.g., Sass, Less) and CSS-in-JS libraries.
- Proficiency in React developer

Languages:

- HTML
- CSS & SCSS
- JavaScript
- C#
- Java
- SQL
- PHP
- Swift

DATABASES:

- MySQL
- SQL Server
- MongoDB
- CASSANDRA

Frameworks

- React.js
- JQuery
- Bootstrap
- Node.js
- Express.js
- Django
- ASP.NET
- ASP.NET Core

Design Tools & Other

- Adobe Photoshop
- Adobe Illustrator
- Adobe Xd
- Figma
- Sketch
